

Pasqal to Ring Nasdaq Closing Bell on September 17th

September 17, 2026

Closing Bell ceremony celebrating Pasqal's recent public listing and marking its next chapter as a publicly traded company

PARIS and NEW YORK, Sept. 17, 2026 (GLOBE NEWSWIRE) -- Pasqal (NASDAQ: PSQL), a global leader in neutral-atom quantum computing, today announced that it will ring the Nasdaq Closing Bell on September 17, 2026, marking the company's recent public listing under the ticker symbol PSQL.

The ceremony marks an important milestone in Pasqal's journey, from pioneering quantum computing research to developing and deploying quantum solutions that address real-world challenges today. Pasqal is working with businesses, research institutions and public authorities around the world to explore and deliver practical applications of quantum computing across industries.

As a public company, Pasqal intends to accelerate the global deployment of its quantum computing platform, support continued innovation, and expand the adoption of quantum computing in commercial and public-sector applications worldwide. The company's focus remains firmly on translating advances in quantum technology into solutions that can address complex problems beyond the reach of today's most powerful classical computers.

"Ring the Nasdaq Closing Bell is a proud moment for us and for everyone, from our employees and founders to our investors, who has contributed to building the company we are today," said Wasiq Bokhari, Chief Executive Officer of Pasqal. "Pasqal was founded on the belief that the neutral-atom approach to quantum computing could deliver high-value solutions to real-world, complex challenges. Today, we are seeing that belief translate into concrete opportunities for businesses, researchers, and public-sector organizations. This milestone reflects how far we have come, but more importantly, it opens a new chapter for what we're building next. We look forward to continuing to advance our technology, expand our international presence, and work alongside our customers and partners to deliver the benefits of quantum computing today."

The Nasdaq Closing Bell ceremony will take place on September 17, 2026 at 4 p.m. ET at the Nasdaq MarketSite in Times Square, New York City. The ceremony will be livestreamed on Nasdaq's official channels and can be viewed at: [Bell Ringing Ceremony](#).

About Pasqal

Pasqal (Nasdaq: PSQL) helps organizations tackle problems that are difficult or impossible to solve with conventional computing methods alone. Founded in 2019 on Nobel Prize-winning research, Pasqal builds and operates neutral-atom quantum computers, delivered with a full software stack, for industry, science, and governments. Pasqal's production-ready systems are available both on-premises and through the cloud, enabling organizations to harness quantum computing without requiring in-house quantum expertise. A single hardware platform supports analog workloads today and is designed to evolve toward fault-tolerant quantum computing in the future.

Headquartered in France with operations globally, Pasqal's quantum computing systems are used by customers across energy, financial services and advanced materials to address complex challenges. Pasqal's customers include Saudi Aramco, Crédit Agricole CIB, LG Electronics and supported by partnerships with NVIDIA and IBM (Pasqal is part of the IBM Quantum Network).

Forward-Looking Statements

Certain statements herein may be considered "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements generally are accompanied by words such as "believe," "may," "might," "will," "estimate," "continue," "anticipate," "intend," "expect," "should," "would," "could," "plan," "predict," "project," "forecast," "potential," "seem," "seek," "target," "possible," "future," "outlook" or similar terminology or expressions that predict or indicate future events or trends. These forward-looking statements include, but are not limited to, statements regarding future events, including Pasqal's ability to accelerate global deployment of its quantum computing platform.

These statements are based on current expectations and are not predictions of actual performance. They are provided for illustrative purposes only and must not be relied on as a guarantee, prediction or definitive statement of fact or probability. Actual

events and circumstances are difficult or impossible to predict and are beyond the control of Pasqal. These statements are subject to known and unknown risks and uncertainties and assumptions regarding Pasqal's business, and actual results may differ materially. These risks and uncertainties include, but are not limited to: general economic, political, social and business conditions; uncertainty or changes with respect to laws and regulations; risks related to Pasqal's indebtedness; the risk from Pasqal pursuing an emerging technology, facing significant technical challenges and the potential that it may not achieve commercialization or market acceptance; Pasqal's reliance on strategic partners and other third parties; Pasqal's ability to maintain, protect and defend its intellectual property rights; and other risks that will be detailed from time to time in filings with the U.S. Securities and Exchange Commission (the "SEC"). The foregoing list of risk factors is not exhaustive. There may be additional risks that Pasqal does not know or currently believes are immaterial that could also cause actual results to differ from those contained in forward-looking statements. In addition, forward-looking statements provide Pasqal's expectations, plans and forecasts of future events and views as of the date of this communication. While Pasqal may elect to update these forward-looking statements in the future, Pasqal specifically disclaims any obligation to do so.
